Device Hub

Design your room and include a charging station compatible with over 1,500 phone models right by the bedside. What great service for any guest who might have forgotten their charger at home. This embedded hub will blend with your decor and occupy a very small footprint on a night stand, desk or cabinet.

Installation

Simple to install and replace. No removable parts means no possible theft. Simply screw down the hub onto any surface and then apply the instructions decal over the top to conceal the screws and create a seamless look.

Refresh

Refresh is a personal or shared charging station for three or more devices. Compact in size and compatible with most of the new devices hitting the market today, it can charge two iPod/iPhones simultaneously while also charging a Blackberry and a bluetooth headset for instance. In fact, using the two iPod connectors and two of your own iPod cords, you could even charge four iPod/iPhones at the same time. Per

The Sanctuary

A universal multi-device charger compatible with over 1500 devices from more than 50 brands. The Sanctuary charges up to four devices simultaneously while the technical functionality is hidden under the false floor of a stylish catchall tray. This tray then becomes the guests' single safe location for consigning all those sometimes misplaced items..
